STRONG RESERVES ARE MASSED

Witnesses to Russian Attacks

Attempt To Open North Nazi Flank

By WILLIAM R. DOWNS
LONDON, April 29.—(BUP)—Reports from Bucharest said today that strong Red army reserves are massing for an assault on the city of Kurluk, 285 miles south of Moscow, in an effort to open up the entire northern flank of Germany's drive into the Ukraine.

The reports from Rumania, Germany's Balkan satellite, said that large Russian forces had reached the Cosuana river and that another column was preparing to cross the Iste river just south of Kurluk.

The two rivers join in Kurluk and the Russians should succeed in recapturing the city they would have strategic positions to threaten Germany's forces in the Ukraine. London military quarters pointed out that the Russian position would be a serious blow to the German drive.

Russian dispatches meanwhile told of sharp fighting on the Leningrad front where 1,000 Germans were said to have been killed in attacks that overran pill-boxes and other Nazi defenses.

RUSSIAN SUCCESSES
Moscow and Berlin were silent regarding the fate of the German 16th army, entrapped during the winter fighting on the Staraya Russa area below Lake Ilmen, about 145 miles south of Leningrad. Even if the Germans have succeeded in recapturing the entrapped forces, it is probable that the Russian tank army will rank as one of the major Russian successes of the winter fighting. It was said.

Russian artillery and infantry were reported to have crushed successive attacks by masses of German reserves on various sectors of the front. The Russians had killed more than 1,000 Nazis in the Smolensk area west of Moscow. In most sectors, deep mud reduced the fighting to battles around small villages.

72 Per Cent. Albertans Vote In Affirmative

Alberta's civilian voters generally gave an affirmative answer to yesterday's manpower plebiscite, although latest figures show that about two thirds of the voters showed up at the polls.

Figures for the 17 ridings, however, were not available to the question: "Are you in favor of retaining the government from any obligation arising out of any past conscription restrictions?"

Most counts revealed 75 per cent "yes" by a margin of 7-3. From 100 of 121 polls, 8,002 in the affirmative and 8,002 in the negative. The far north riding of Athabasca showed a 40 per cent "no" vote over the "yeses." Totals from 121 of 179 polls were: Yes, 4,688; No, 4,620.

32 Per Cent. In Favor

Figures for the entire province showed that 32 per cent of the voters were in favor of retaining the government from any obligation arising out of any past conscription restrictions.

Bag 71 Nazis

LONDON, April 29.—(BUP)—The Luftwaffe has bagged 71 Nazis and 12 aircraft since the Soviet air force has shot down 71 enemy planes near the town of Kurluk, 285 miles south of Moscow, in the past few days. The 8th Bomber Group reported.

RAIDS DIRECTED AT WARSHIPS

R.A.F. Planes Found at Kiel, Trondheim

City Requires Permission To Boost Tickets

By LINDA J. WILLIAMS
LONDON, April 29.—(BUP)—British planes left great fires blazing at Kiel on the Baltic and heavily bombed Trondheim on the Norway coast on the seventh straight night of their longest and biggest round the clock offensive of the war, the air ministry said today.

The British night attacks again were directed largely at knocking out German warships.

The Norwegian refugee government has received reports that the battleships Gneisenau and Tirpitz as well as the big cruisers Prinz Eugen, Scheer and Luetow are now at Trondheim, where there also are large numbers of German troops and large submarines. The Prinz Eugen's stern was said to be grounded due to bomb damage.

In addition to the raid on Kiel and Trondheim, which were the main targets, British planes attacked airfields in Holland and Belgium and bombed a big power station at Ghent, Belgium.

Nine bombers were missing after the night operations.

One German fighter plane was downed in the attack on Kiel. The air ministry revealed that while big bombing planes were attacking Trondheim, night fighters, coastal command planes made a series of strong diversional attacks on airfields and other targets in Norway and on coastal shipping.

His were seen on two ships off Alesund, the ministry said, and continued on Page 2, Col. 3.

The vast scope of America's present and projected military participation in fighting Hitler's "total war" has been revealed by President Roosevelt.

In his report to the people of the United States, Mr. Roosevelt gave the first official summary of the new military strategy of how wide U.S. operations are. He did it without disclosing specific information of value to the enemy, but for the first time, he laid out one statement for all to see.

The President gave a hint of the U.S. expeditionary force, when he said the force would be sent to the front lines by May 15, it was learned today.

HEAVY TOLL TAKEN

Non-Stop Air War Keeps Raging Over Malta Island

By JAMES CHAMBERS
LONDON, April 29.—(BUP)—The non-stop aerial war, more fierce than the battle of Britain, is raging over the Mediterranean island of Malta, with outnumbered British pilots taking a heavy toll of enemy raiders, the air ministry said today.

The battle was a concerted and, as a summary report said, the island's defenses have a greater risk of collapse than ever.

The Germans and Italians have paid heavily for the damage they have inflicted on Malta's air defenses. During March alone, R.A.F. fighters destroyed 33 enemy raiders, probably destroyed 28 others and damaged 10 more.

Although outnumbered six to one, the British fighters have harassed the raiders because of superior knowledge of aerial skill and tactics.

The Germans are always kept guessing and never know which Allied air force is attacking them.

Laval Confers With African Military Heads

By LINDA J. WILLIAMS
LONDON, April 29.—(BUP)—Pierre Laval, French premier, called today on the military heads of the French North African provinces, calling in senior military authorities from the colonies for conferences.

Gen. Auguste Nogues, military commander of French Morocco, and Vice-Admiral R. A. Perrier, secretary-general for Africa, arrived in Laval's office yesterday.

Hardly had they begun their hard day's work when they were called to the office of the French North African provinces, calling in senior military authorities from the colonies for conferences.

Cost Of Victory Will Be Work, Sorrow And Blood, Roosevelt Tells Nation

By J. F. SANDERSON
WASHINGTON, April 29.—(CP)—Declaring that the price of retaining civilization "must be paid in hard work and sorrow and blood," President Roosevelt said Tuesday night the Japanese southward drive apparently has been checked. Australia, New Zealand and adjacent islands now are to become "bases for offensive action."

In a five-minute address to the country, delivered from the White House, Mr. Roosevelt said the Vichy government that the action necessary to prevent the use of French territory by Axis forces, he executed a campaign of the delivery of arms in the Pacific.

The President disclosed that he had ordered "hundreds of thousands of American soldiers and sailors" to be sent to battle the Axis in the Pacific. The disclosure was in the form of an interpolation in the President's address.

Since the United States entered the war, he said, "we have dispatched strong forces of our army and navy—several hundred thousand of them—to bases and battle fronts thousands of miles from home."

He informed the civilian population of the United States that "every member would feel the effect of his newly announced program for stabilizing the cost of living and called upon it for sacrifice and sacrifice in the interest of victory."

"Never in the memory of man," he said, "has there been a war in which the struggle and sacrifice of the people has been so great."

Duce Planning To Crack Down On Italo Fraud

By WILLIAM DICKINSON
LONDON, April 29.—(BUP)—Premier Benito Mussolini told Italian radio today that a lack of discipline and fraud have created an "italo fraud" situation and that "inevitable punishment" will be meted out to the guilty ones, the home radio reported.

Mussolini's statement highlighted reports, generally discounted in London, that Italy is fed up with the war and that a crisis appeared imminent.

Reports, some of which had their origin in Switzerland, had called into question the effect that King Victor Emmanuel's resignation would have on the war.

At that point, Mussolini decided to act himself and demand Mussolini's resignation, as well as that of Count Ciano, the Italian foreign minister.

No Uncertainty Here

Edmonton people left no room for doubt that they want Canada's overseas forces maintained and built up as circumstances may require, with no hampering regard for policies enunciated two years ago. In the ratio of about six to one they voted to restate parliament from any such restrictions. In both the constituencies the proportion was similar. Every city gave a "yes" majority. Approximately as many voters turned out as at the last Dominion general elections. Roughly, two-thirds of those qualified went to the polls.

Edmonton thus worthily endorsed the high recruiting record it established in the first great war and has made good in the present one. On the whole, showing, voluntary enlistment has met the requirements so far as this city is concerned. But, in case it should fall here or elsewhere in the line, all the voters of the city very emphatically said parliament should be free to apply compulsion if necessary. Edmonton's recruiting to see the struggle through to a victorious end does not need to be argued. The figures supply the proof.

Another Common Enemy

President Roosevelt's seven-point control program is of course designed to prevent military or political aid to the Axis. Several of the proposals Canada has already been made familiar by experience, and these may be supplemented by the Canadian government. A new feature is the "rider" which would set a limit of \$25,000 per year to the net income any person in the United States may keep after paying income taxes. There are not many incomes of that magnitude in Canada at present.

Congress may drastically overhaul the scheme, and will certainly change it in details. But that controls will be adopted, along the general lines, is a matter of time. No country can have an economic spree and at the same time pit its strength against a powerful combination of enemies abroad. The more efficient military efficiency do not go together.

Canadians are more than casually interested in this because it will be easier to maintain economic balance in the United States. Mounting prices and wages there tend to upset the equilibrium here. A war boom across the border would endanger our whole "needing" structure.

What Congress does with the President's program, and what system of regulation evolves, will therefore be watched by Canadians with concern second only to that of the people of the United States. The more successfully their system operates, the less trouble there will be keeping inflation in check here also.

Things To Keep In Mind

The Chief of the United States army having visited London, the first word of the Admiralty in London is that the "something is cooking" in the way of a major strategy is to be inferred. No hint has been given, and no hint is to be given, as to the nature of the plans, but there is the assurance of Britain's minister of economic warfare that there is a collaboration between England and America such as never has been seen between two countries before.

The rest can be left to the military men, the political leaders have cleared the way and created the atmosphere for this, to the hearty approval of the people of both countries—all the great United Nations. When and where and how new blows are to be struck the enemy for the experts to decide, and that is no reason to imagine they do not fully sense the importance of striking as quickly as this can be done with fair assurance of making the blows effective.

The part of the public, in all the Allied countries, will be to fight insistence, to refrain from fault-finding, to accept reverses as incidents which may be expected, to treat gossip with the contempt it deserves.

We are going to win the war. The plans are in the making by men who know their jobs and know all the circumstances. The striking power of the Allies is growing with the passing of the days. These are the things to keep in mind while we wait to see where, and how, the war is to be "second front" is to be established.

Sufficiently Decisive

Incomplete returns—they will not be complete until the result of the soldier vote is announced next week—indicate a "yes" majority of the plebiscite of two-thirds or thereabouts. The plurality may be higher and not likely to be lower. When 4,000,000 votes had been counted, the affirmative majority was better than of course if the ratio had been three to one or four to one. Because that is what we have known.

Not a special case. The result is decisive, beyond any question, and parliament has been restored to complete freedom to act. The bulk of the negative vote was in

Quebec, as expected. But there it was not as heavy as expected, being on the showing of incomplete returns about 21% to 22%. For every million votes polled in Quebec, there were more than 400,000 "yes" votes were polled in Quebec.

Quebec, the people in other provinces should remember when any disposition is shown to "alarm Quebec" because on the whole it went strongly contrary to the voting of Quebec. The "yes" minority in that province was large, and the affirmative vote was polled there in a less congenial atmosphere than prevailed where there was less opposition.

It has been officially stated that the enemy has lost more planes over Malta during April than the R.A.F. has lost in raids over Nazi-occupied territory. R.A.F. losses in the Mediterranean necessarily have been heavier than in previous months. A big of a dozen Axis planes in a day is quite common for the Malta gunners and fighters. The island must be pretty well littered with Nazi and Fascist machines which have made their last landings.

The official count shows that enemy submarines have sunk in the Atlantic and adjacent waters since the middle of January, nearly 50 per cent. That is what is meant by the "yes" vote in Washington. The shipping situation is critical. Before it can be anything else than critical some way will have to be found to grow the iron ore and the shipbuilding will have to launch more than ten ships every week.

Nazi airmen are said to have deliberately bombed hospital areas on the island of Malta, doing so in the killing of eleven persons and injuring many others. Remembering the slaughter at Rotterdam this will occasion no surprise. What is a mystery. Perhaps it was an exhibition of fury aroused by the stubborn defence on the Canadian island. A new feature is the "rider" which would set a limit of \$25,000 per year to the net income any person in the United States may keep after paying income taxes. There are not many incomes of that magnitude in Canada at present.

Sugar is to be rationed in the United States, at half a pound per person per week. In Canada we are urged to get along with fifty per cent more—and so far as the general public is concerned, it is doing it. There should be no doubt in the matter now that our neighbors are to get only two-thirds the amount.

There is the very evident probability that unless self-restraint keeps consumption down in Canada compulsion will have to be introduced here also. Canadians have no right to dip more deeply into the sugar bowl than people across the line—and in the long run we can't do it.

LETTERS TO THE EDITOR
Editor, Bulletin: As a Canadian soldier overseas, I have found that hundreds of other men serving in the army from home have found, that after two years of absence, that many family difficulties, misunderstandings and absence for so long a period, have been the cause of many broken homes.

Before I left Edmonton I knew Mr. Bryan only as a lawyer. But since then, I have found that he is a very kind and helpful man. He has been a great help to me in many ways.

Three Dangerous Driving Cases Are Aired In City Police Court Visits Parents

Three persons charged with dangerous driving that resulted in traffic accidents appeared before Magistrate A. L. Miller, R.C. Magistrate, Wednesday afternoon.

Jack Stewart who was involved in an accident at 86 avenue and 90 street on April 18, pleaded guilty to the charge and was fined \$10 and costs or 21 days. The accident occurred when he was driving a car and the one he struck was going up the hill just south of the Low Level bridge. The damage was not serious and Stewart admitted that he failed to see the other driver's signal to turn off the street.

Vernon Beaudry, driver of the car that turned turtle at the corner of Kingsway and 118 avenue in striking a passenger, pleaded guilty to the dangerous driving charge and will be sentenced later in the day. The accident occurred at 3 a.m. Wednesday.

CASE DISMISSED

The third person charged with dangerous driving was dismissed when the crown failed to convince the police magistrate that the accused was actually driving dangerously.

One man charged with intoxication when he drove the usual 20 and 200 and two female vagabonds were also dismissed when the crown failed to convince the police magistrate during their trial that they were in fact on the streets.

The drunk was Joseph Lamb and the two women were Thelma Osborne and Rose LaTourneau.

Game League Meeting Draws 600 Persons

More than 600 persons attended the annual youth meeting of the Northern Alberta Fish and Game Protective League at the Canadian Legion Memorial hall on Tuesday night.

Featuring the evening's meeting was a broadcast of a quiz dialogue written by R. W. McKinnis, president of the league. The dialogue was specially prepared for the occasion. It reviewed protective measures advocated by the league and stressed the need of conservation measures by all, especially directing such measures towards the interest of the younger fish and game enthusiasts.

The idea of sportsmanship and conservation was the theme of the dialogue.

Following the dialogue the members saw films on "Fishing and color pictures of Jasper Park."

Dr. T. Forrester Macdonald, president of the league, and Vernon Wikster of the meeting and Vernon Wikster of the meeting and Vernon Wikster of the meeting.

Lieut. R. Shaw Leaves To Join New Regiment

For 11 years a member of the Edmonton Bulletin editorial department, Lieut. Robert M. Shaw has volunteered for active service and will be posted to the 31st Alberta Reconnaissance Battalion when that unit is formed. It was announced on Wednesday. While not officially stated, it is understood that he was the first officer to leave the staff.

Lieut. Shaw leaves Wednesday night for Calgary, where he will remain at Currie Barracks for 10 days or two weeks after which he will take a special course either at Gordon House, BC, or Brockville, Ontario.

A native of Herbert, Saskatchewan, Lieut. Shaw is the son of Mr. and Mrs. R. N. Shaw, 11228 30 avenue. He has resided here for 20 years.

He was educated at King Edward and Strathcona schools and at the University of Alberta.

JOBS BULLETIN He joined The Bulletin editorial department in 1931, and served until he had put in his name for active service.

When he joined the Reconnaissance Battalion mobilization was under way and he was assigned to the 1st Battalion. He is being formed from the 19th Alberta Dragoons of this city and the 11th Light Horse of Calgary.

Teachers On Military Service Will Retain Full Seniority Rights

To establish records of employees on military and civilian leaves of absence, checks will be made on all those on leave of absence for military purposes to ascertain with what branches of the forces employees of the Edmonton Public School Board are now connected. It was decided at a meeting of the board in the Civic block, Tuesday night.

Recruiting Chief On recommendation of the finance committee, the board agreed that where any doubt exists with respect to the nature of the service being rendered by those who have been granted leave of absence for military purposes such a check will be made.

It was also agreed that for the purpose of this regulation an application for leave of absence for military purposes must be accompanied by documentary evidence from the officer commanding or other responsible official of the branch of His Majesty's forces in which the employee has enlisted.

LEAVES GRANTED When the board considered the application for leave of absence for military purposes, it was decided that the board should undertake at once a national housing scheme to provide quarters for the thousands of men who will be working in the overworked city.

Mr. Margaret Wagner of Atlanta, Ga., certainly had a remarkable record at the recent southeastern sectional championship held in Florida. She successfully defended the women's pair championship, finished second in the mixed pair event with J. Patrick Dunne, the blind bridge player of Miami, and finished in a tie for second in the team-of-four. Here is an example of her playing style:

West was really suspicious of the spade bid by South. Mrs. Wagner. He opened the suit anyway. Mrs. Wagner started by cashing the ace and king of diamonds, then she laid down the queen of hearts, as though trying to establish a trick to dummy. East fell for the bait and thought that West was developing a club trick early.

As if Friend Were Present

Here is one girl who can hold her own by mail. While others make over the air and king of diamonds, then she laid down the queen of hearts, as though trying to establish a trick to dummy. East fell for the bait and thought that West was developing a club trick early.

Of course just as you were talking doesn't mean ungrammatical. Bad grammar in a letter makes an ugly impression. So track down offenders like

Good Manners Help
On Road To Success
How to Behave Is The Greatest Lesson Parents Can Teach Their Children Today—It Requires the Patience of Job

No one will deny that to teach children good manners requires the patience of Job and the vigilance of an FBI agent, but the rewards of doing it are so great that they are worth all the time and labor and effort that it takes. For good manners are a sure way to the success of credit that is earned, the respect that is gained, the world that is opened, and the life that is made. Take their lucky possessors, father, mother, brother, sister, and all the cardinal virtues, and put together.

We rate their intelligence by the ease with which they adapt themselves to the company they are in. We forget their success or failure by the quality of their manners. And whether they are gracious and cordial, or gruff and repellent, determining whether we want to be acquainted, or drop them with a dull, cold, shut right then and there.

Well-mannered get breaks. The boy didn't get the job he wanted, he could have filled so brilliantly because he came into the president's office with his head, and sat down on the corner of the desk. The woman was not invited to walk under the awning she was dying to because she always got into the car with the driver. Whereas, on the contrary, many a man of mediocre ability holds down a good job solely on the strength of his good manners, which make everybody like him, and inclined to give him a shove up the ladder.

Good manners being such as can be depended upon to do the right thing in the right way, at the right time. Good manners being such as can be depended upon to do the right thing in the right way, at the right time. Good manners being such as can be depended upon to do the right thing in the right way, at the right time.

Uncouth child NEVER LEARN. Mothers say: "Oh, I know Johnny and Mary have terrible manners, but they will learn how to behave when they grow up." But they don't. They grow up into being the girls who wear lipstick all over your best embroidered towels, and the boys who use cigarette holders in your very tablecloths and bend the silver to show how strong their hands are, and who let old ladies climb over them at the theatre, and who never dream themselves to write a note of thanks for a gift.

The youngsters think that whether they have good manners or bad makes no difference. But it does. An ill-mannered child can establish a prejudice against him in the minds of those who know him that it takes years and years to outlive. Not long ago I was visiting a friend to call on a brilliant young doctor, and she replied: "Oh, no. I've known him all my life and he was the most ill-mannered brat I ever saw. I want nothing to do with him."

What To Do

My suggestion would be to give her more opportunities to act upon her imaginative ideas what with you. Give her more rein because she is more capable. Thin try to explain to her that every one, no matter who plays a dual role, that of follower and leader.

Sturdy Meat Soup Is One-Dish Meal

By MRS. GAYNOR HADDOX
Russian soup is a massive subject. However, the most important thing for the American housewife in wartime to know about these sturdy soups is that they are actually made of wholesome one-dish meals. According to the editors of the "Russian Cook Book," the American Housewife, the Russians serve something like dumplings or small pastries filled with meat or vegetables with these soups.

BORSCH TROIKA
(Serves 4 to 6)
Four bunches beet, 8 cups stock, 1 cup vinegar, 1 pound frankfurters, 2 cups cream.
Slice beets and put into stock. Add vinegar. Boil until beets are done. Slice frankfurters into small pieces, add to the mixture and bring to a boil. Stir cream to taste just before serving.

Esme Malloch Is Bride Of Murray Byers

TINY chapel of St. Stephen's College, University of Alberta campus, was the scene of a pretty wedding at three o'clock Wednesday afternoon.

Dr. M. S. Kerr of Canmore performed the ceremony assisted by Rev. G. A. Kettell, rector of St. Stephen's.

The bride, a graduate in housewifery from the University of Alberta, is a member of the Alpha Theta Fraternity. The son of Mr. Byers and the late Mr. Walter H. Byers of Canmore, the bridegroom was also graduated from this university, receiving his diploma in pharmacy in 1939.

Given in marriage by her father, the bride was lovely in her wedding gown of soft white net, fashioned with puffed sleeves, long trailing train and full skirt. Complementing her ensemble she wore a chapel veil in matching white and white accessories. Her only piece of jewelry was a strand of pearls.

Her flowers were a shower bouquet of pink and white sweet peas and white sweet peas.

Mrs. Ralph Byers of Canmore, the bridegroom's mother, was maid of honor. She wore a tulle and white sweet peas and white accessories. Her only piece of jewelry was a strand of pearls.

University Women Can Be Force For National Unity In Canada

Speaking on the need for fostering friendly co-operation among the women of the different provinces, Dr. Dorothy Turville of London, president of the Canadian University Women, addressed a meeting of the Edmonton University Women's Club at the tea hour on Tuesday.

Dr. Turville said "Our federation was founded by women of foresight. It should possess a unity of purpose and wield a power that is denied to individuals."

She spoke of other national associations who remain loyal in spite of their suffering. Women in parts of Europe are no longer allowed to band themselves together. Within a year after the Stockholm conference, ten of the national associations were dissolved.

In Britain, 27 clubs are carrying on routine activities, as well as unusual wartime efforts.

When Warsaw fell, the international president, Mrs. Adamovich, disappeared, but news has been received to the effect that she is now in safety. No word has yet been heard of her associates.

In conclusion Dr. Turville stated: "One of our concerns of the future is the status of university women. We must be ready to help our unfortunate sisters in occupied parts of the world regain their privileges and keep the torch of culture burning in this time of darkness, even though it should fall in Europe."

Dr. Turville was introduced by Mrs. H. C. Newland, president of the Edmonton club.

Seated at the head table were Dr. Turville, Mrs. W. A. R. Kerr, Mrs. H. C. Newland, Mrs. J. McRae, Mrs. M. Patrick, Mrs. F. C. Butterworth, Mrs. M. Glimby and Mrs. L. F. Morrison.

Mrs. W. G. Harris Is Installed As Deputy President

Mrs. W. G. Harris, P.N.G., of Maple Leaf Rebekah Lodge No. 2 I.O.O.F., was installed as district deputy president of the district at the semi-annual meeting. The meeting was held in conjunction with Maple Leaf Rebekah Lodge No. 2 Friday evening.

Mrs. J. S. Clarke, retiring district president, was in charge of the installation proceedings, assisted by Mrs. A. Gibson, deputy master.

A large representation of members from the lodges in the district and also the Fort Saskatchewan Lodge, was present.

Mr. H. C. Newland, president of the Edmonton club.

Seated at the head table were Dr. Turville, Mrs. W. A. R. Kerr, Mrs. H.

Stocks, Blonds

Manpower shortage has forced San Francisco stock exchange to employ girls as board markers for first time in its history.

In the first attack upon Japan, U.S. planes bombed Japanese cities. Military censors touched out portions of this naval bomber and carrier.

Bombing of Japan, while it claims the headlines, is only the highlight of a series of United Nations air attacks which have rained bombs on enemy and enemy-held lands around the globe. Map locates the successful attacks.

Torpedoed Kittens Need Nine Lives

Rescued after British passenger ship on which they were born had been torpedoed, unconcerned Kittens enjoy milk. Equally unconcerned is stewardess Katherine Leacy, for whom torpedoing was third such experience.

Canucks With The R.A.F. In India

This Blenheim bomber crew has been together in successful flight operations against the Germans, Italians and Japanese since nearly a year ago. They have seen action in England, Malta, Libya, Burma, and now India and are a fine example of what Canadians are doing on active service. The crew, left to right, Gunner Reg Clinton, an English graduate of Cambridge; Pilot Officer James Purves of Halifax, N.S., and Observer Bill Clearthue of Montreal, P.Q.

The Navy Takes Over

Here's the first photo to show U.S. Navy sailors manning an anti-submarine gun on an American merchant ship, "somewhere on the high seas", in place of merchant marine gunners. In the background is a pair of navy escort vessels of the new submarine-chaser type. All in all it looks like bad news for U-boats.

Kamerad To Comrade

Hitler's spring offensive is still working in reverse as Russians, despite fierce German resistance, continue their push east. Here Nazi soldiers surrender to Russian troops in the Kharkov sector. Photo, radioed from Moscow to London, was rushed to America by clipper.

Down—One Brick At A Time

New high in tedious jobs is achieved by this London worker who must take down 120-foot chimney brick by brick. German bombs left chimney standing and it cannot be blasted without risking damage to surrounding buildings. Dome of St. Paul's in background.

Doom—For Refugee Ship

This dramatic air view shows a United Nations' refugee ship blowing up after a warningless attack by an Axis submarine off the Atlantic coast. All passengers, including women and children, were brought to Charleston, S.C., following their rescue.
